## Hydrofacial Device Introduction Catalog

### Introduction

Hydrofacial is an exciting NEW technology that combines the efficacy of Microdermabrasion, vacuum system and new Aqua Fuse hydration system. It is a lot gentler than crystal microdermabrasion or diamond dermabrasion as only water is used, and we use professional quality machines.

The main advantage of such hydra dermabrasion machines lies in that it is much gentler by using only water, and enables treatment diversification by using with skin care products for different functions like essential oil, whitening products, lactic acid, salicylic acid and more, to achieve various aims on customers' request.

### IS HYDROFACIAL RIGHT FOR YOU?

**Yep. We don't have a type.**  
HydroFacial addresses all skincare needs.
